

GSM & GPS FleetInfo MapCom M16 FLEX

Europe-wide safeguarding via the ET monitoring stations in EU, Russia and Ukraine

Application:

Integration of the MapCom M16 FLEX in jewellers' rolls or jewel cases for presentation of the collections at jewellers. But also in the packaging of valuable goods on the itinerary: watches, jewels, etc, where normal tracking systems are too bulky and not flexible enough to apply.

Product features:

- GSM / GPRS / GPS / A-GPS
- All aeriels integrated
- Integrated motion sensor
- Software update over the air (FTP) is possible
- Multi-level Watchdog concept
